**Regina Romero has proven over the last 12 years that she does not deserve our vote. Tucson residents have suffered greatly from her politics and shortsighted decision making. Now, she want to be your Mayor. Tell her no!**

**ELECTION DAY IS AUGUST 27th. EARLY VOTING STARTS AUGUST 2nd.**

Neighborhood streets

Park vandalism

Dangerous sidewalks

Filthy Alley Ways

Underfunded Police & Fire

Abandoned Properties

After twelve years as City Council Woman for Ward 1, Romero wants to be your mayor. But her priorities are questionable. Our neighborhood streets are in dismal repair, our neighborhood parks are neglected, our infrastructure suffers, our back alleys are filthy, and police and fire are underfunded. What have been her priorities in the last twelve years? Not you... Her favorite developers have recieved special favors in the form of exorbitant tax breaks, renters continue to be evicted in high rates and affordable housing is at an all time low. Yet, she claims that the biggest issue facing our community is climate change! This election year let's show our discontent with elected officials that would rather look after their own self-serving special interests than to serve the needs of their constituents.

**NO MORE Romero!**
