

REPUBLICAN
NATIONAL COMMITTEE

October 8, 2021

Mr. [REDACTED]
[REDACTED]
[REDACTED]
Oro Valley, AZ [REDACTED]

Dear Mr. McLean,

Our Party's hopes for ending Joe Biden's radical fundamental transformation of America and effectively cutting his term in half depends on the action you take today.

I'm counting on conservative grassroots leaders like you in Arizona to rush an emergency contribution of \$200, \$400 or \$600 to the Republican National Committee (RNC) in the enclosed USPS Priority Mail envelope.

Mr. [REDACTED] your immediate support is critical to laying the foundation to defeat the rich and powerful forces of the Left and elect Republican Majorities to the U.S. House and U.S. Senate in the upcoming elections.

The RNC is organizing the largest, data-driven grassroots Get-Out-The-Vote operation in our Party's history to help Republicans take back complete control of Congress and elect more GOP governors and state legislators committed to stopping Joe Biden and the Democrats from destroying America.

The bottom line is Republicans have such a tremendous opportunity to win in 2022 that we must invest now in expanding our nationwide grassroots ground game.

But to keep this vital effort on track during this crucial juncture of the election cycle, the RNC must raise \$5.8 million in the next 15 days.

Leftist billionaires and Liberal special interest groups plan on spending hundreds of millions of dollars on their own voter turnout programs to keep Nancy Pelosi and Chuck Schumer in charge of a Democrat-controlled Congress so they can continue to push our country to the Far-Left and erase all the positive gains America made under President Trump.

Our Party must surpass the Left's voter turnout efforts if we are to elect a Republican-led Congress and stop the Biden Democrats from ruining our nation with their Socialist schemes.

President Trump is backing the RNC's 2022 campaign programs. He recently stated, **"I look forward to working with them [the RNC] to win in 2022 and beyond."**

I hope you'll join President Trump in supporting the RNC by taking a moment right now to write the most generous check you can afford, place it in the Priority Mail postage-paid envelope and drop it in your local mailbox or leave it where your regular mail is picked up. You can also put your contribution to work right now and save the RNC valuable resources by donating online at www.GOP.com/2021EmergencyFund. Or you can call 1-800-445-5768 to contribute by credit card.

(Next page, please)

Your prompt reply and campaign gift are vital to our Party's grassroots ground game – and to countering the Left's efforts to expand the Democrats' power grab.

Thanks to your generous support, the RNC already has more than 300 field staff, including new regional political directors and state directors across the country – and we're recruiting and training thousands of grassroots activists on voter registration and digital activism through the Republican Leadership Initiative (RLI).

Just as important, the RNC is leading the fight for election integrity and ensuring free, fair and transparent elections. We will have staffers and volunteers dedicated to safeguarding election integrity at polling locations from early voting through Election Day.

But our Party will need to open more field offices and train tens of thousands of more volunteers to match the massive ground operation the Left is building to defeat us.

The Liberal special interests and progressive protest groups that bankrolled Joe Biden's campaign are getting their money's worth from the Democrats. They want to keep the government gravy train rolling to fund their Socialist takeover of America.

In the 2022 midterm elections, the Left will spend and do whatever it takes to ensure Biden, Pelosi and Schumer continue their radical transformation of American society and rolling back President Trump's accomplishments that made our nation freer, more secure and prosperous.

Republicans are poised to win back the U.S. House and U.S. Senate and stop their Far-Left, Big Government Socialist policies that will hike taxes and have already led to higher consumer prices, record debt, surging crime rates, open borders and government intervention in nearly all aspects of life.

Mr. [REDACTED], that's why we must raise the \$5.8 million in the next 15 days to keep our Party moving forward to victory in 2022. We cannot afford any cutbacks at this stage of the campaign.

Please rush back your emergency contribution of \$200, \$400 or \$600 to the RNC right now in the enclosed USPS Priority Mail postage-paid envelope. You can also put your gift to work immediately and save the RNC postage costs by donating online at www.GOP.com/2021EmergencyFund or calling the RNC directly at 1-800-445-5768.

Mr. [REDACTED], your urgent gift today is critical to sowing the seeds for Republican victories in 2022. Please give as generously as you can.

Sincerely,

Ronna McDaniel
Chairwoman, Republican National Committee

P.S. Mr. [REDACTED], the RNC must raise \$5.8 million in the next 15 days to keep our Party's grassroots Get-Out-The-Vote operation on track for the 2022 elections. Our Party's voter turnout efforts are the key to winning back the U.S. House and U.S. Senate and effectively cutting Joe Biden's term in half. Please rush your emergency gift of \$200, \$400 or \$600 to the RNC today in the enclosed USPS Priority Mail postage-paid envelope I've enclosed. Thank you.
